

Rail Safety Enhancement Program, Phase C

AUGUST 2024

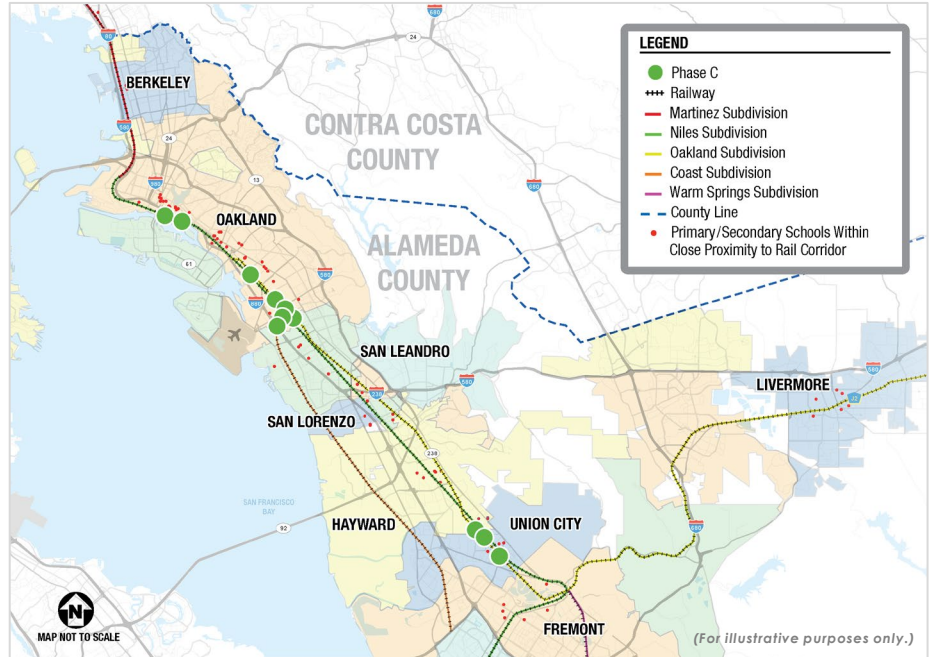

PROJECT OVERVIEW

In response to the Alameda County Goods Movement Plan approved in 2016, individual rail crossings throughout the County were examined to identify crossings and corridors most impacted by rail traffic and to identify where rail crossings safety can be enhanced. The crossings analysis considered the following primary factors:

- Current and potential future rail volumes and routing, annual average daily automobile traffic, accident history, land use sensitivities and equity priority communities
- Safety, delay, noise and air quality

Once the crossing analysis identified needed at-grade rail crossing safety enhancements, those most impacted and in need of improvements were included in the Rail Safety Enhancement Program (RSEP).

Implementation of the program is a three-phased approach: RSEP-A, RSEP-B, and RSEP-C. RSEP-C is comprised of the remaining locations originally prioritized in the 2018 Rail Strategy Study, with recommended safety enhancements centered around pedestrian treatments, such as sidewalks, automatic pedestrian gates, channelization, lighting, warning strips, fencing and gates, and signing and striping. These upgrades will have significant and positive safety impacts for our local communities.

PROJECT NEED

- Alameda County has a high volume of rail activity combined with densely populated residential areas.
- Pedestrian oriented safety devices are lacking in most of these areas.

PROJECT BENEFITS

- Improves pedestrian, bicycle and vehicle user safety with an emphasis on schools
- Improves rail and roadway safety
- Supports economic vitality by supporting rail connectivity to the Port of Oakland
- Supports freight rail operations
- Supports housing and commercial redevelopment
- Improves transportation viability for passenger rail service and roadway networks
- Achieves emissions reductions through reduced idling supporting state and regional air quality goals—protecting our climate and maintaining the health of communities
- Promotes equity because these rail lines are often in low income and historically underserved communities

Rail crossing along 37th Avenue in the City of Oakland.

Rail crossing on L Street in the City of Livermore.

STATUS

Implementing Agency: Alameda CTC

Current Phase: On hold

PARTNERS AND STAKEHOLDERS

Alameda CTC, Alameda County and the cities of Oakland and Union City, the California Public Utilities Commission, Union Pacific Railroad, and Caltrans

Note: Information on this fact sheet is subject to periodic updates.

COST ESTIMATE BY PHASE (\$ x 1,000)

Environmental	TBD
Design	TBD
Right-of-Way	TBD
Construction	TBD
Total Expenditures	TBD

FUNDING SOURCES (\$ x 1,000)

TBD	TBD
Total Revenues	TBD

SCHEDULE BY PHASE

	Begin	End
Environmental/Advance Preliminary Design	TBD	TBD
Final Design	TBD	TBD
Right-of-Way	TBD	TBD
Construction	TBD	TBD

Note: Project schedule subsequent to the preliminary engineering/ environmental phase is contingent on funding availability for future phases.
